

ST GEORGE'S PARK

As the Flowers start to bloom, St George's Park Retirement Village in Ditchling, Sussex begins to come alive with activity.

As the sunshine begins to appear (in-between getting our brollies out) and the gardens begin to look awash with colour, we begin to open the village and ease restrictions.

The challenges of the past months have not dampened spirits at St George's Park Retirement Village. Despite the village being quiet in lockdown we have been lucky enough to welcome many new residents. It is fantastic that residents can now begin to enjoy their facilities as we start to open the village, in line with government guidelines.

New Resident, Ros Frost. "I'm so delighted to have just moved to St Georges Park Retirement Village. During what must have been very challenging times, the sales team consistently went 'above and beyond' in supporting me throughout the process. Not only did they find me just the right apartment, they were also always there to offer much appreciated reassurance and patience when needed most! Having settled into a lovely new home, I'm now thoroughly enjoying getting to know new people and using our wonderful facilities."

The village boasts a range of facilities including a Library, Snooker room, Bowles Green and Croquet Lawn. For those who are feeling energetic they may fancy a few lengths in the Swimming Pool or a set or two on the tennis court; before visiting our restaurant or coffee shop. Village life can be as busy or quiet as you want it.

Kate Wright. Sales & Marketing. "We have been extremely busy with a flurry of apartment sales over the last few months. Lockdown created a challenge for the sales team because we weren't able to take visitors into our wonderful facilities. It is testament to the sales and village team that we have continued to welcome new residents safely. We want new residents to feel as welcome and supported as possible in starting this new chapter of life."

St Georges Park have a dedicated village team who ensure the smooth running of the village and see that residents remain settled and content. There is a strong community and support network which has been essential in the current climate.

Debbie Wynn. Sales and Marketing. "With the sales suite being as busy as ever, it is clear that lockdown has given people the opportunity to reassess their lifestyle and retirement options. For many, the feeling of isolation has led to them considering a move to a retirement community with like-minded people where they can be part of a community with the security of a support network."

St. George's Park is set in 250 acres of beautiful grounds. We have one and two bedroom apartments available to view.

Contact our Sales and Marketing Suite on 01444 259732 to find out how independent retirement living could be for you.
